

Steering Committee Meeting 2/23/2016 – Oneonta

Steve compiled & distributed a master list of all of the brainstormed potential goals for the next plan of service that were developed at committee meetings, regional meetings, and other methods of feedback.

The potential goals were arranged loosely by the pre-determined elements and were analyzed by the committee.

Surviving goals will be compiled into a plan of service draft and redistributed to the committee for comment.

Then the work of adding intended results and evaluation methods will begin.

The goal is to have a draft plan of service available for distribution to the membership before the next round of regional meetings in late-March. Then feedback will be collected for review and a second draft fine-tuned for submission to the 4CLS Board and New York State.

Next meeting- April 5, 1 PM in Oneonta
