Are we the last library in the area to transfer our budget to the school district? Awaiting answer.

The village is encouraging us to expand our funding to the school district instead of the village due to the library usage.

We might need to consider hiring our own treasurer, or go through the school if the proposal is approved.

Questions for Steve Bachman, Director of Four County Library System:

Is the Library board required to increase their responsibility if the proposal is approved?

What should the responsibilities be?

Who can be on the board, are they limited to the town and village or can they be within the school district?

Next meeting November 18, 4 pm.

Motion to adjourn at 5:48 pm – Jackie, Rebecca
